SUMMARY

I'm a Full-Stack Web Developer who loves building clean, user-friendly web applications. I work with technologies like HTML, CSS, JavaScript, React, Node.js, and databases like MongoDB and MySQL. I enjoy problem-solving, learning new things, and collaborating with teams to create great digital experiences. Outside of coding, I have a passion for creativity—whether it's design, art, or other creative projects which helps me bring a unique touch to my work.

SKILLS

- Programming Languages: C, C++, Java, Python
- Front-End Development: HTML, CSS & JavaScript.
- Version Control: Git & GitHub.
- JavaScript Frameworks: React.js
- Databases: MongoDB (NoSQL)
- Web Frameworks: Express.js
- Back-End Development: Node.js
- Tools & Technologies: VS Code, Postman and npm

EDUCATION

- **Medi-Caps University, Indore, Madhya Pradesh** **2022 - 2026**
Bachelor of Technology in Computer Science Engineering
Current - 9.16 CGPA
- **Chameli Devi Public School, Indore, Madhya Pradesh** **2010 - 2022**
Class 12th - 88.6%
Class 10th - 89%

PROJECTS

1. **Alert Right** (Emergency Safety Application) - [Try here](#)
 - Developed a MERN stack-based SOS app to enhance personal safety through instant emergency alerts.
 - Integrated Twilio to simultaneously send SMS and make calls to all registered emergency contacts.
 - Used Google Maps API to share real-time location with contacts during emergency situations.
2. **Placement Right** (Placement Preparation Application) - [Try here](#)
 - A MERN Stack quiz platform offering tailored quizzes on coding, aptitude, and reasoning to help students ace placement exams.
 - Tracks progress and ranks students on a live leaderboard, motivating continuous improvement.
 - Designed for easy navigation, making quiz participation and progress tracking simple and engaging.

WORK EXPERIENCE

- **Full Stack Developer, IQ Paths Technologies** **April 2025 - Present**
 - Developing a dynamic resume builder application that allows users to create, customize, and export professional resumes with real-time previews and template management using React and Node.js.
- **Video Editing Head, Google DG, Medi-Caps University** **Aug 2024 - Present**
 - Led a team of video editors and content creators in producing high-quality video tutorials, promotional content, and event highlights for Google Developer Group (GDG) initiatives.

ADDITIONAL INFORMATION

- **Certifications** : 15+ Google Cloud Skill Badges, Artificial Intelligence Internship Certificate, Web Development Internship Certificate.
- **Competitions** : Tech Roadies 2025 Winner, Google GenAI Study Jams tier 1 swags and goodies.
